- The aluminum V-shaped hull is made of marine aluminum;
- GALA TABS – a special patented hull design that provides for the expansion of the transom and reinforcement with transom brackets;
- Fiberglass steering console with windshield, railing, front seat and backrest, stainless steel cup holders and glove compartment;
- The aft part of the boat with a recess, a soft seat for the driver and a storage box;
- Mechanical steering system, including a steering cable, gearbox and steering wheel;
- Built-in ventilated bow locker with a non-slip coating;
- Soft cushion on the bow locker;

- All seats, cushions and backrests on the boat are made using SILVERTEX® materials;
- Inner aluminum and outer plastic transom plates for motor installation;
- A set of zinc anodes for additional corrosion protection of the hull;
- One aluminum drainage fitting with plug and membrane;
- Non-slip deck coating for easy and safe movement around the cockpit;
- Three towing points and four lifting points;
- Molded mooring eyebolt in the bow and two additional ones in the stern of the boat;
- Bow handle made of molded PVC;
- Overpressure valve;

- Three-chamber inflatable U-shaped tube made of PVC or Hypalon material;
- Plugs for the inflatable tubes are made of molded PVC;
- Decorative covers for the tubes with handles and logo;
- Bottom beam with a water deflector;
- Bottom bar made of molded PVC to protect the keel;
- A set of oars;
- High efficiency foot pump;

OPTIONAL EQUIPMENT:

- Replacement of the deck coating with EVA Marine Deck (SEADECK);
- Replacing the PVC material of the tube with a fabric of higher density – 1450 g/m2;
- Fiberglass tube end;

- Additional protection of the tube with a bottom bar made of molded PVC;
- Parking awning; • Cover for the steering console;
- Electrical kit, which includes key rocker switches, navigation lights, running lights, horn, bilge pump, battery switch, battery tray;
- Fiberglass bow platform with mooring eyebolt, padded backrest and bow roller (V330 without roller);
- Onboard fiberglass platforms with non-slip coating;
- Installation of EVA Marine Deck covering on the side platforms;
- Additional overpressure valves;
- Additional bow towing units;
- Fuel system with 39-liter aluminum tank, integrated fuel level gauge, filler neck and fuel hoses.

VIKING luxe RIB tenders

V420

V420

VIKING V420 is a mid-sized aluminum hull luxury RIB and a great choice for being a roomy and powerful yacht tender, family boat or boat for watersports.

The major advantages and strong selling points of VIKING V420 are:

- very roomy cockpit with large and comfortable seats, spacious bow, rear and console locker storages.
- new and unique design of rear part of the boat: Z-transom with water deflector and transom extensions.
- fresh and elegant design along with exceptional performance,
- very convenient two side steps for safe boarding.

The boat can be equipped with under-deck 83-lit tank, placed in the mid-section of the boat for best weight balance.

The boat can be built with either PVC or HYPALON inflatable tube.

V420

V420
420 cm (13' 9") long
60HP max, 6 pers

5 reasons to choose GALA

GALA Z-TRANSOM

GALA Z-TRANSOM with Z-form water deflector and bottom extension is for exceptional protection & performance.

GALA Z-TRANSOM

VIKING V420 has TRUE SELF-BAILING and very roomy cockpit. It drains out all the water with no bilge pump needed.

TWO GRP SIDE STEPS

Two GRP side step panels are perfect for safely getting in and out of the boat or even seating on them.

LARGE STEERING CONSOLE

Console with high windshield and railing and roomy dashboard for up to 10" GPS plotter and other equipment.

NEW UPHOLSTERY DESIGN

All upholstery elements are made of premium SILVERTEX material with a two color design with nice padding and stitching.

Features:

STANDARD FEATURES:

- The aluminum V-shaped hull is made of marine aluminum;
- GALA TABS – a special patented hull design that provides for the expansion of the transom and reinforcement with transom brackets;

V500

V500
500 cm (16' 5") long
100HP max, 9 pers

VIKING V500 is one of the most popular models in GALA line. This model opens a new extensive series of cruising RIB with aluminum hulls, suitable for heavy sea conditions and high waves.

This model is 5 m (16'5") long, rated for 100HP engine, being the most compact RIB with four-units cockpit configuration on a market. It features:

- 1- Bow locker with cushion and seat back,
- 2- Fiberglass steering console with front seat,
- 3- Alu captain seat with two storage compartments, three handrails and folding up seating,
- 4- Wide rear seating with folding seat back and large rear storage compartment.

Two rear walking platforms with motor well add a nice touch of comfort and safety.

The boat comes with some unique optional features from GALA:

- Original GALA T-top with aerodynamically profiled framing.
- Heavy-duty welded towing arch with two mooring cleats and waterski towing post. These make this model an excellent choice for watersports, family cruising or just relaxed boating across the waves.

The boat comes with two choices of tube material: either HYPALON and PVC with nice selection of colors and original GALA styling.

V500

5 reasons to choose GALA

DEEP-V ALU HULL

Aluminum welded Deep-V stepped hull of VIKING V500 makes it a real performer with exceptional seaworthiness.

REAR PART DESIGN

V500 rear part configuration is the one of a kind design to make the boat comfortable and practical.

«GALA-TABS» HULL DESIGN

«GALA-TABS» hull design is a unique feature for easily getting on plane and water spray protection! It's GALA's signature.

GALA Z-TRANSOM

VIKING V500 has TRUE SELF-BAILING and very roomy cockpit. It drains out all the water with no bilge pump needed.

HARD-TOP FOR THE MODEL

Fiberglass cover (sunshade) HARD-Top with a mounting plate for installing equipment.

CRINILINES PLATFORMS

Crinelines - stern platforms behind the transom, located on both sides of the engine for comfortable launching and recovery from the water.

TWO SIDE WALKWAYS

The boat is wide enough to provide walkways on each side of the boat for safety and comfort for everyone aboard.

HIGH-PROFILE CONSOLE

Ergonomic fiberglass console with two-level dashboard and glove compartment.

SUNDECK FOR THE MODEL

VIKING V580 and V650 removable sundeck with soft cushion.

VIKING V580, V650 and V7 is a restyled versions. The new versions of these boats are an exceptional combination of style, functionality and new solutions.

The new S-16 sofa with a folding table on the VIKING V580 adds practicality. The new S-17 sofa on the VIKING V650 is designed for a more comfortable stay of passengers on the boat. The newly designed C-12 console for the VIKING V580, V650 and V7 is designed for added convenience and a modern look. Both models have a new fiberglass bow platform with a non-slip relief coating.

The boats have been made even more comfortable with crinelines in the stern for easy entry and exit. The new HARD-Top, available as an option on these boats, gives the boat a modern look and protects you from the sun and bad weather conditions.

The VIKING V580, V650 and V7 boats have a new practical design to take your adventures and recreation to the next level.

Features:

STANDARD FEATURES:

- The aluminum V-shaped hull is made of marine aluminum;
- GALA TABS – a special patented hull design that provides for the expansion of the transom and reinforcement with transom brackets;
- Built-in ventilated bow locker with non-slip coating;
- All seats, cushions and back seats on the boat are made using SILVERTEX® materials;
- External plastic transom plate for engine installation;
- Two drainage aluminum connectors with a plug and a membrane;
- Non-slip deck covering for comfortable and safe movement around the cockpit;
- Three towing units and four lifting points;
- Two aluminum mooring cleats in the stern (for boats without towing arches);

- Molded PVC bow handle;
- A molded mooring cleat in the bow part of the boat;
- Five-chamber inflatable U-shaped tube made of PVC or Hypalon material;
- Overpressure valve;
- Plugs for inflatable tubes are made of molded PVC;
- Decorative overlays on the tube with handles and logo;
- Beam with a drainage divertor;
- Bottom rub rail made of molded PVC for keel protection;

- A set of oars;
- Highly efficient foot pump;
- Repair kit and user manual;
- Fiberglass steering console C-12 with windshield, railing, front seat and back seat, stainless steel cup holders and glove box;
- Fiberglass seat for driver and passenger with foldable cushions, handrails and storage box, S-16 for V580 and S-17 for V650;
- The stern part of the boat with a recess, a soft folding seat and a spacious box;
- Soft cushion for the bow locker for V650.

OPTIONAL EQUIPMENT:

- Upgrade tube color to white / black / dark gray;
- Upgrade aluminum RIB hull to gray (RAL 7001) / dark gray (RAL 7011) / black (RAL 9005);
- Upgrade deck covering to EVA Marine Deck (SEADECK);
- Additional tube protection with a rub rail made of molded PVC;
- Overall cover;
- Cover for steering console;
- Cover for seat;
- Electrical kit including keyboard switches, navigation lights, horn, bilge pump, battery switch, battery box;

- Fiberglass bow step with mooring cleat and bow roll;
- Side fiberglass steps with a non-slip coating;
- EVA Marine Deck (SEADECK) covering on side steps;
- Fuel system with 106L for V580 and 202L for V650 aluminum tank, built-in fuel level sensor, filler neck and fuel hoses;
- Additional overpressure valves;
- Towing arch with two aluminum mooring rings and a towing hook;

- GRP cover (sunshade) HARD-Top with a mounting plate for installing equipment;
- Steering wheel with installation on the console;
- A set of hydraulic steering systems for engines with a capacity of up to 300 hp;

VIKING V8 is a new boat model in the world of water adventures for the new 2024 season. This amazing boat combines true craftsmanship and the latest technology for unforgettable moments on the waves.

VIKING V8 boldness and sophistication emphasize its incredible readiness to take on even the most turbulent of seas. With a length of 8 meters (26 feet), this boat has many useful features on board.

VIKING V8: A special version that impresses with its comfort concept. Equipped with a comfortable G-23 console with front seat and built-in WC as an option, S-24 driver's seat and kitchen area behind the seat. There is a possibility of installing two sandecks, aft and forward. Everything is designed for a comfortable stay on the water.

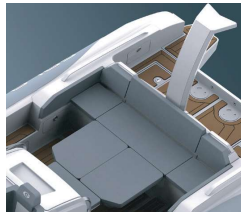

The unique design of the D-shaped tube expands the deck space, which makes it possible to lie down in full growth on the rear sofa.

Sit comfortably and enjoy the majesty of this model, emphasized by the extreme stability of the aluminum hull with GALA-ALU-TECH. The VIKING V8 is your companion in the world of water adventures.

OPTIONAL EQUIPMENT:

A soft cushion with a plywood base - SUNDECK, which is installed between the bow locker and the steering console.

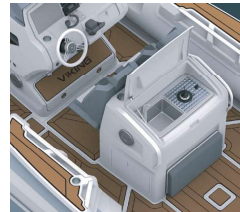

Soft cushion with a plywood backing that is installed between the seats in the stern sofa.

Bio-dressing room in the front of the console.

There is a lot of space at the rear for a party with table and lots of seating.

A kitchen surface for cooking behind the driver's seat.

Two GRP side step panels with handrails are perfect for safely getting in and out of the boat or even seating on them.

FREESTYLE tenders

foldable boats with floorboards / air-deck

F240•F270•F300•F330
F360•F390•F420•F450

F330

FREESTYLE tenders from GALA are represented across 8 models and constitute a new and fresh design in the class of foldable boats with floorboards or airdeck. Key features are:

- Each model is equipped with the «GALA-JET» inflatable tube, allowing for an impressive carrying capacity and power rating.
 - Each model comes with two aluminum sliding seats (1 on FREESTYLE F240) and aluminum floorboards.
 - Every unit is expertly equipped only with genuine GALA fittings and accessories.
 - There are 12 models in the series and two flooring options:
 - FREESTYLE F240, F270, F300, F330, F360, F390, F420, F450 - with solid aluminum floorboards and inflatable keel.
 - FREESTYLE F240A, F270A, F300A, F330A - with high-pressure airdeck and inflatable keel.
- In creating this line of tenders, we offer something entirely different in comparison to other boats available on the market: unprecedented quality of design, engineering and craftsmanship in each boat.

Colors:

- Light-gray tube / Gray decor
• PVC
- White tube / Gray decor
• PVC
- Black tube / Gray decor
• PVC

Options:

• Soft seat cushion

• Overall cover

CHALLENGER inflatable canoes

C320 • C380 • C450 • C520

C450

Our series of inflatable canoes developed in, an extension of and innovation on a symbol of Canadian identity. The avantgarde concept is creating a new facet in the canoe industry, as well as the inflatable boating industry, pioneering a more advanced and versatile canoeing lifestyle.

CHALLENGER canoes retain classic canoe features while incorporating contemporary materials and technology for an unbeatable alternative:

- They are UNSINKABLE and are significantly more STABLE. - They do not flip over, unless you want it to.
- They are LIGHT, COMPACT and fit the car trunk. No need for strapping anything to the roof of a car.
- They PERFORM. Motor compatible, enabling you to reach your island or cottage doing up to 30 km/h.
- They are COMFORTABLE. Seating is situated higher and with lots of cockpit space around.
- They have remarkable carrying capacities! You will be impressed at how much gear you can take.

C320
320 cm (10' 6") long
4 HP max, 2 pers

C380
380 cm (12' 6") long
6 HP max, 3 pers

C450
450 cm (14' 9") long
8 HP max, 4 pers

C520
520 cm (17' 1") long
8 HP max, 5 pers

C520

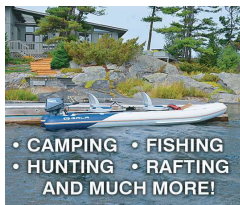

5 good reasons to choose GALA

IMPRESSIVE CAPACITIES
